Explanations

SAMPLE

1. What does "cumplir" refer to in terms of an action?

- A. To blame
- B. To complete**
- C. To complicate
- D. To destroy

The verb "cumplir" translates to "to complete" in English, which aligns with its primary meaning in various contexts. It is commonly used to denote the act of fulfilling or carrying out an obligation, a duty, or a promise. For example, it can refer to completing a task, meeting a deadline, or reaching a specific milestone, such as celebrating a birthday ("cumplir años"). This focus on fulfillment is critical in distinguishing "cumplir" from other verbs that may indicate blame, complication, or destruction, which do not convey the same sense of completion or achievement. Understanding the nuances of "cumplir" is vital, as it extends to various scenarios in everyday conversation and writing in Spanish.

2. What does the verb "Prometer" mean?

- A. To promote
- B. To protect
- C. To promise**
- D. To recognize

The verb "prometer" means "to promise." This word is derived from the Latin term "promittere," where "pro" means "forth" and "mittere" means "to send." Therefore, it carries the implication of making a commitment or assurance to do something in the future. In various contexts, it can be used to express hope or intention regarding actions or behaviors. The other choices, while they represent valid Spanish verbs, do not align with the meaning of "prometer." "Promote" would be translated as "promover," "protect" corresponds with "proteger," and "recognize" translates to "reconocer." Understanding the specific meanings and derivations of these verbs is important for grasping their uses in Spanish.

3. Which verb translates to 'to advise' in English?

- A. Aconsejar**
- B. Advertir
- C. Aguantar
- D. Añadir

The verb "aconsejar" translates to "to advise" in English, making it the correct choice. This verb is commonly used in contexts where one person gives another person recommendations, suggestions, or counsel regarding what they should do in various situations. For example, you might say, "Te aconsejo que estudies para el examen," which means "I advise you to study for the exam." The other options represent different meanings: "advertir" typically translates to "to warn" or "to notice," focusing on alerting someone about a situation rather than guiding them; "aguantar" means "to endure" or "to bear," which refers to the ability to handle something difficult; and "añadir" translates to "to add," which involves incorporating something additional rather than providing advice. Each of these verbs serves a distinct role in the Spanish language, highlighting the importance of choosing the right verb for the specific meaning you wish to convey.

4. What does "convertirse" mean in English?

- A. To convert
- B. To transform
- C. To become**
- D. To adapt

The verb "convertirse" in Spanish translates to "to become" in English. This is because "convertirse" implies a change in identity or state, indicating a transformation into something else. In many contexts, it encapsulates the idea of a gradual change that leads to a new condition or status. For example, when one says "Se convirtió en doctor," it can be understood as "He became a doctor," highlighting the change in profession and identity. This transformational aspect is central to the meaning of "convertirse." The other translations—while related—do not capture the essence of this specific change of state as effectively as "to become."

5. What is the meaning of the verb 'pedir'?

- A. To fight
- B. To ask for**
- C. To happen
- D. To seem

The verb 'pedir' translates to 'to ask for' in English, which is consistent with its function in everyday conversations. This verb is commonly used when someone is requesting something or seeking assistance, making it a fundamental verb for communication in Spanish. For example, one might say "Voy a pedir ayuda," which translates to "I am going to ask for help." Understanding 'pedir' as 'to ask for' is essential, especially given its prevalence in various contexts, such as requesting food in a restaurant or seeking information. The other choices provided do not align with the primary meanings or usages of 'pedir,' which further emphasizes the accurate definition.

6. What is the translation of "to stop" in Spanish?

- A. Destruir
- B. Dificultar
- C. Dejar de**
- D. Culpar

The translation of "to stop" in Spanish is accurately represented by the phrase "dejar de." This expression literally means "to leave off" or "to cease" doing something, as in stopping an action. In contrast, the other options do not convey the idea of stopping. "Destruir" means "to destroy," which involves causing damage or ruin. "Dificultar" translates to "to make difficult," referring to the act of complicating a situation rather than stopping it. "Culpar" means "to blame," indicating an action of assigning responsibility for something rather than bringing it to a halt. Thus, "dejar de" is the only option that appropriately captures the meaning of stopping in Spanish.

7. What is the English translation of "Reir (i)"?

- A. To cry
- B. To smile
- C. To laugh**
- D. To shout

The correct translation of "Reir (i)" is "to laugh." This verb specifically refers to the action of expressing amusement or joy, typically indicated by the sound of laughter. In Spanish, "reir" derives from Latin, and it directly correlates with the English concept of laughing, which evokes an emotional response often associated with happiness or mirth. The other options do not convey this meaning; for example, "to cry" refers to expressing sorrow, "to smile" is a related but different expression of amusement without vocalization, and "to shout" indicates a vocal expression that can be loud or aggressive. Thus, recognizing the context and nuances of these verbs helps in accurately translating "reir."

8. What does 'Impedir' imply in terms of action?

- A. To include
- B. To allow
- C. To stop/prevent**
- D. To demonstrate

The term 'Impedir' in Spanish directly translates to 'to stop' or 'to prevent' in English. It implies taking action to obstruct something from happening. When you impede something, you create an obstacle that hinders its progress or occurrence. This aligns perfectly with the concept of prevention, as it focuses on the act of halting an event or action before it takes place. The other options do not capture the essence of 'impedir.' For example, including or allowing something involves enabling or facilitating it, which is the opposite of preventing. Demonstrating, on the other hand, refers to showing or proving something, which also contradicts the idea of hindrance embodied in 'impedir.' Thus, the selection of 'to stop/prevent' is correct based on the meaning and implications of the verb.

9. Which verb means "to recognize"?

- A. Probinir
- B. Pertenecer
- C. Reconocer**
- D. Promoter

The verb that means "to recognize" is "reconocer." This verb is commonly used in various contexts where someone is acknowledging or identifying someone or something, demonstrating awareness or familiarity. For example, in a sentence: "Ella puede reconocer a sus amigos en la multitud," it translates to "She can recognize her friends in the crowd," which illustrates the verb's function in indicating recognition. The other options, while they may have their own meanings, do not convey the notion of recognition. "Probinir" does not exist as a standard Spanish verb, "pertenecer" means "to belong," and "promoter" is a noun related to a promoter in English. Understanding the meanings of these verbs is essential, but in this case, "reconocer" stands out as the only verb that directly translates to "to recognize."

10. Which of the following translates to "to resort to"?

A. Recurrir a

B. Reir

C. Romper

D. Referirse a

The phrase "to resort to" in English closely aligns with the Spanish expression "recurrir a." This verb phrase is commonly used when someone turns to a certain method or option for assistance or as a solution, often in times of difficulty. For example, one might say "recurrir a la ayuda" which means "to resort to help." The other options do not convey the same meaning. The verb "reir" means "to laugh," which does not relate to seeking assistance. "Romper" translates to "to break," indicating a physical action unrelated to resorting to something for help. Lastly, "referirse a" means "to refer to," which is about pointing out or indicating something rather than seeking a solution. Therefore, "recurrir a" is indeed the correct choice.
