Introduction

Preparing for a certification exam can feel overwhelming, but with the right tools, it becomes an opportunity to build confidence, sharpen your skills, and move one step closer to your goals. At Examzify, we believe that effective exam preparation isn't just about memorization, it's about understanding the material, identifying knowledge gaps, and building the test-taking strategies that lead to success.

This guide was designed to help you do exactly that.

Whether you're preparing for a licensing exam, professional certification, or entry-level qualification, this book offers structured practice to reinforce key concepts. You'll find a wide range of multiple-choice questions, each followed by clear explanations to help you understand not just the right answer, but why it's correct.

The content in this guide is based on real-world exam objectives and aligned with the types of questions and topics commonly found on official tests. It's ideal for learners who want to:

- Practice answering questions under realistic conditions,
- Improve accuracy and speed,
- Review explanations to strengthen weak areas, and
- Approach the exam with greater confidence.

We recommend using this book not as a stand-alone study tool, but alongside other resources like flashcards, textbooks, or hands-on training. For best results, we recommend working through each question, reflecting on the explanation provided, and revisiting the topics that challenge you most.

Remember: successful test preparation isn't about getting every question right the first time, it's about learning from your mistakes and improving over time. Stay focused, trust the process, and know that every page you turn brings you closer to success.

Let's begin.

How to Use This Guide

This guide is designed to help you study more effectively and approach your exam with confidence. Whether you're reviewing for the first time or doing a final refresh, here's how to get the most out of your Examzify study guide:

1. Start with a Diagnostic Review

Skim through the questions to get a sense of what you know and what you need to focus on. Your goal is to identify knowledge gaps early.

2. Study in Short, Focused Sessions

Break your study time into manageable blocks (e.g. 30 – 45 minutes). Review a handful of questions, reflect on the explanations.

3. Learn from the Explanations

After answering a question, always read the explanation, even if you got it right. It reinforces key points, corrects misunderstandings, and teaches subtle distinctions between similar answers.

4. Track Your Progress

Use bookmarks or notes (if reading digitally) to mark difficult questions. Revisit these regularly and track improvements over time.

5. Simulate the Real Exam

Once you're comfortable, try taking a full set of questions without pausing. Set a timer and simulate test-day conditions to build confidence and time management skills.

6. Repeat and Review

Don't just study once, repetition builds retention. Re-attempt questions after a few days and revisit explanations to reinforce learning. Pair this guide with other Examzify tools like flashcards, and digital practice tests to strengthen your preparation across formats.

There's no single right way to study, but consistent, thoughtful effort always wins. Use this guide flexibly, adapt the tips above to fit your pace and learning style. You've got this!

Questions

SAMPLE

- 1. What does the associated code 10-31 refer to?**
 - A. Suspicious activity
 - B. Felony type hit
 - C. Meeting a specified individual
 - D. Traffic check
- 2. Which unit is referred to as Station 17?**
 - A. California Highway Patrol
 - B. Animal Control
 - C. Orange County Probation
 - D. Local Police Department
- 3. When a device is "Out of service," what is its status?**
 - A. Operational
 - B. Available for use
 - C. Not functioning
 - D. In standby mode
- 4. What does the command "see the man" indicate?**
 - A. An instruction to locate and assess a male individual
 - B. A call for backup in a hostile situation
 - C. A report of a burglary in progress
 - D. A directive to arrest a male suspect
- 5. What is the legal term for operating a vehicle while impaired by alcohol?**
 - A. Hit and run misdemeanor
 - B. Drunk driver
 - C. Stolen car
 - D. Petty Theft
- 6. What does the code 10-23 signify?**
 - A. Standby
 - B. En route with prisoner
 - C. Return to station
 - D. Cancel last message or assignment

- 7. What police department is associated with Station 26?**
- A. Anaheim Police
 - B. Fullerton Police
 - C. Buena Park Police
 - D. Placentia Police
- 8. What is the term used for theft that involves stealing property worth more than a specified amount?**
- A. Petty Theft
 - B. Grand Theft
 - C. Theft/Larceny
 - D. Concealing stolen property
- 9. What is the legal term for the act of unlawfully seizing and carrying away a person?**
- A. Robbery
 - B. Kidnapping
 - C. Attempt kidnapping
 - D. Murder
- 10. What type of incident is represented by the code 903?**
- A. Medical Aid
 - B. Fire
 - C. Animal Information
 - D. Plane Crash

Explanations

SAMPLE

1. What does the associated code 10-31 refer to?

- A. Suspicious activity**
- B. Felony type hit
- C. Meeting a specified individual
- D. Traffic check

The code 10-31 is used to indicate suspicious activity. This term is important in police work as it alerts officers to the presence of behavior or situations that may warrant further investigation or increased attention. Officers are trained to observe and report any activities that appear unusual or out of the ordinary, which could potentially indicate criminal intent or a threat to public safety. Recognizing and responding to suspicious activity is a crucial part of proactive policing, as it allows law enforcement to prevent incidents before they escalate. In contrast, the other options pertain to specific situations or directives that are more defined than the broader category of suspicious activity. The specific codes like "felony type hit" or "traffic check" refer to particular responses or checks that officers may perform, showcasing the relevance of specificity in communication amongst law enforcement.

2. Which unit is referred to as Station 17?

- A. California Highway Patrol
- B. Animal Control**
- C. Orange County Probation
- D. Local Police Department

Station 17 refers to Animal Control in the context of local municipal operations. This designation typically indicates a specific facility where animal control services are managed, which might include the sheltering of stray or lost animals, responding to animal-related emergencies, and enforcing local animal ordinances. Each station in a municipal context often has its specific responsibilities, and in this case, Station 17 is dedicated to addressing issues related to animal welfare and public safety regarding animals. The other options represent different agencies or departments that perform various functions within law enforcement and community service but do not hold the designation of Station 17. Understanding the specific roles and designations of different agencies helps differentiate their functions in public service and safety.

3. When a device is "Out of service," what is its status?

- A. Operational
- B. Available for use
- C. Not functioning**
- D. In standby mode

When a device is described as "Out of service," it clearly indicates that the device is not functioning. This status means that the equipment is incapable of performing its intended duties or tasks. When a device is out of service, it is typically unavailable for use until it is repaired or restored to operational condition. This status would prevent any reliance on the device for activities or functions that it is designed to perform, ensuring that personnel understand not to utilize it during this period. In contrast, the other possibilities suggest varying levels of functionality, which are not applicable when a device is out of service. Being operational, available for use, or in standby mode implies some degree of readiness or functionality, which is clearly not the case with a device that is out of service.

4. What does the command "see the man" indicate?

- A. An instruction to locate and assess a male individual
- B. A call for backup in a hostile situation
- C. A report of a burglary in progress
- D. A directive to arrest a male suspect

The command "see the man" typically signifies an instruction for personnel to locate and assess a male individual. This phrase implies a need for observation and evaluation, often in situations where identifying a person—possibly a suspect, witness, or someone in danger—is crucial. This could be part of routine monitoring or responding to a specific incident where an individual's presence needs to be verified. In the context of law enforcement, assessing a person might involve determining their intentions, verifying their identity, or ensuring the safety of both the individual and the surrounding community. This command is functional and does not carry an immediate implication of aggression or confrontation, which differentiates it from commands that might suggest backup or arrest, as seen in the other options.

5. What is the legal term for operating a vehicle while impaired by alcohol?

- A. Hit and run misdemeanor
- B. Drunk driver
- C. Stolen car
- D. Petty Theft

The legal term for operating a vehicle while impaired by alcohol is often referred to as "Driving Under the Influence" (DUI) or "Driving While Intoxicated" (DWI) in many jurisdictions. The term "drunk driver" colloquially describes an individual who engages in this conduct, highlighting that the driver has consumed alcohol to a degree that impairs their ability to operate the vehicle safely. This term is widely recognized in law enforcement and legal settings, illustrating the dangerous behavior of operating a motor vehicle while one's cognitive and motor skills are significantly compromised due to alcohol consumption. Law enforcement agencies take impaired driving very seriously due to the potential for accidents and injury, which underlines the importance of identifying and penalizing such behavior effectively. Other choices represent different legal concepts that do not pertain directly to the act of driving under the influence of alcohol. For example, a hit-and-run refers to leaving the scene of an accident, a stolen car indicates a vehicle that has been unlawfully taken, and petty theft deals with the unlawful taking of someone else's property without the intention of returning it, none of which relate to operating a vehicle while impaired.

6. What does the code 10-23 signify?

- A. Standby
- B. En route with prisoner
- C. Return to station
- D. Cancel last message or assignment

The code 10-23 signifies "Standby," which is used by law enforcement agencies to indicate that an officer should pause their current activity and wait for further instructions. This code is essential in high-pressure situations where additional direction may be needed, allowing for better coordination among officers in the field. When an officer is instructed to standby, it helps ensure that they remain in a safe position and are ready to respond to new information or changes in the situation at hand. In contrast, the other options refer to more specific actions or statuses that an officer might report or be directed to undertake, such as transporting a prisoner, returning to the station, or canceling a previous communication. These codes serve different purposes within police communication protocols and do not align with the broader, more situationally adaptive directive that "standby" implies.

7. What police department is associated with Station 26?

- A. Anaheim Police**
- B. Fullerton Police
- C. Buena Park Police
- D. Placentia Police

The Anaheim Police Department is associated with Station 26. This connection stems from the geographic and logistical responsibilities of the department in serving its community and responding to incidents within the designated areas. Each police station is responsible for a specific region, and Station 26 is part of the infrastructure that supports the Anaheim Police in executing its duty to maintain safety and order. The other choices represent different cities and their respective police departments, which serve areas outside of Anaheim's jurisdiction, making them incorrect in this context.

8. What is the term used for theft that involves stealing property worth more than a specified amount?

- A. Petty Theft
- B. Grand Theft**
- C. Theft/Larceny
- D. Concealing stolen property

The term for theft involving property worth more than a specified amount is referred to as Grand Theft. This designation typically signifies that the value of the stolen property surpasses a predetermined monetary threshold, which varies by jurisdiction. In many areas, if the value of the stolen goods exceeds that threshold, the crime is treated more seriously and classified as a felony, rather than a misdemeanor. Grand Theft is significant because it often carries harsher penalties, reflecting the greater impact of stealing more valuable items. The legal system categorizes crimes based on their severity, and the financial value of the property involved is a critical factor in this classification. In contrast, Petty Theft generally refers to the theft of items that are below the value threshold set forth in the laws of that jurisdiction. Theft/Larceny is a broader term that encompasses both petty and grand theft but does not specify the value involved. Concealing stolen property pertains to the act of hiding property that one knows to be stolen, rather than the act of theft itself. Hence, Grand Theft is the correct term for theft of high-value property.

9. What is the legal term for the act of unlawfully seizing and carrying away a person?

- A. Robbery
- B. Kidnapping**
- C. Attempt kidnapping
- D. Murder

The correct answer is the term "kidnapping," which specifically refers to the unlawful seizing and carrying away of a person against their will. This crime often involves the intent to hold the person for ransom, as a hostage, or simply to commit unlawful acts. Kidnapping is treated as a serious offense due to the violation of a person's freedom and the potential physical and psychological harm that can result from such an act. In contrast, robbery involves taking property from a person through force or intimidation, and while it may sometimes overlap with the act of seizing a person, it does not primarily focus on the unlawful confinement of an individual. Attempt kidnapping refers to the intention or effort to kidnap someone without successfully completing the act, which does not apply when the act has indeed been carried out. Murder, on the other hand, concerns the unlawful taking of a person's life and is not relevant to the issue of unlawful detention or carrying away. Each of these definitions highlights why kidnapping is the precise term for the unlawful act described in the question.

10. What type of incident is represented by the code 903?

- A. Medical Aid
- B. Fire
- C. Animal Information
- D. Plane Crash**

The code 903 is specifically used to refer to a plane crash incident. This code helps first responders quickly identify the nature of the incident they are dealing with. In situations involving a plane crash, immediate and effective coordination among multiple agencies is often required due to the potential for widespread damage and the need for specialized response teams. Recognizing the specific code allows for quicker deployment of the right resources and personnel, which is critical in emergency situations. Other related codes are designated for different types of incidents, which is why they would not be appropriate here. For instance, medical aids would fall under another code entirely, focusing on health emergencies rather than aviation-related incidents. Understanding such codes and their meanings is an essential aspect of training for cadets, enabling them to respond efficiently in various situations.
