1. Which major piece of knowledge should you study for ethics and conduct in ordnance?

- A. The SOP Manual.
- B. The Range Safety Protocol.
- C. The Army Values and Creed.**
- D. The Uniform Code of Military Justice.

Ethics and conduct in ordnance are guided by the Army Values and Creed, which provide the moral compass for every action you take. This framework instills integrity, responsibility, and professional behavior that you apply in real-world tasks—from strict safety checks to honest reporting and accountability to your teammates and the mission. While other items like the SOP Manual, Range Safety Protocol, and the Uniform Code of Military Justice are all important—SOPs describe how to perform tasks, safety protocols cover safe operation, and the UCMJ outlines legal standards and consequences—the Army Values and Creed establish the underlying attitude and decisions that sustain ethical conduct across all scenarios. In ordnance, where precision and safety hinge on trust and character, grounding yourself in those values is the most direct path to ethical behavior.

2. What is the significance of the Army Green Service Uniform?

- A. It represents the Army's heritage and is worn by Soldiers during official duties.
- B. It is worn only during physical training.**
- C. It is used for casual wear outside official duties.
- D. It marks the highest rank in the Army.

The main idea is that the Army Green Service Uniform serves as the Army's formal dress, linking Soldiers to the service's heritage and projecting a professional, standardized appearance during official duties. It's designed for official duties, ceremonies, and other formal events, so wearing it signals respect for tradition and a serious, ceremonial presentation. This contrasts with physical training gear, which is worn for workouts, and casual wear, which isn't appropriate for official settings. The uniform carries rank and qualifications through its insignia, but its purpose is about formal appearance and tradition, not about indicating the highest rank.

3. What is the significance of the Army's official song?

- A. It represents the Army's heritage.
- B. It reflects the pride and spirit of the Army.**
- C. It dictates uniform regulations.
- D. It sets deployment schedules.

The official Army song serves as a unifying symbol that carries the Army's pride and fighting spirit across generations and roles. It helps create a sense of belonging and morale during ceremonies, parades, and official events, reminding soldiers of their duty and the tradition they uphold. While it does reflect the Army's heritage, its most immediate significance is to evoke pride and esprit de corps, binding units and individuals together. It does not set administrative rules for uniforms or deployment schedules; those are governed by separate policies and plans. In this way, the song acts as a living expression of what the Army stands for—commitment, courage, and continuity.

4. What is the primary function of the U.S. Army Ordnance School?

- A. Providing ordnance training
- B. Conducting field reconnaissance
- C. Managing base logistics
- D. Researching nuclear weapons

The main function is to provide ordnance training to soldiers. The U.S. Army Ordnance School focuses on teaching and certifying personnel in weapons, ammunition, and explosive ordnance handling, maintenance, safety, and related technical skills. Through structured courses and hands-on instruction, it ensures recruits and specialists are proficient in maintaining and operating ordnance systems, which directly supports readiness across the Army's ordnance corps. That focus distinguishes it from field reconnaissance, which is carried out by units trained for tactical information gathering; base logistics, while it involves supply and support at installations, is broader than what the Ordnance School specifically teaches; and nuclear weapons research is handled by specialized labs and agencies outside the school.

5. What do the Army Values emphasize for personnel in ordnance roles?

- A. Respect for opponents and adherence to rules.
- B. Loyalty, duty, respect, selfless service, integrity, and personal courage.
- C. Wealth, fame, and power.
- D. Flexibility and improvisation.

The Army Values provide the standard of character that guides every soldier, including those in ordnance roles. They center on six core traits: loyalty, duty, respect, selfless service, integrity, and personal courage. In practice, this means staying true to the mission and the people you serve with (loyalty), fulfilling your responsibilities and doing what needs to be done (duty), treating others with dignity and consideration (respect), putting the welfare of the nation and your unit above self-interest (selfless service), doing what's right even when it's hard or costly (integrity), and facing fear or risk with resolve (personal courage). For ordnance personnel, these values are especially critical because handling weapons and ammunition demands safety, accountability, and teamwork. Loyalty and duty drive you to safeguard your teammates and maintain readiness. Respect underpins clear communication and proper procedures with colleagues and commanders. Selfless service ensures you prioritize mission safety and effectiveness over personal convenience. Integrity means accurately reporting faults, following protocols, and never compromising safety. Personal courage empowers you to address dangerous situations, seek help when needed, and uphold high standards even under pressure. Other options don't align with the established Army Values. Wealth, fame, and power run contrary to the character these values promote, and while flexibility and improvisation are valuable traits in the field, they aren't part of the six core Army Values that guide conduct for all soldiers, including those in ordnance.

6. Fort Gregg-Adams honors which two individuals?

- A. Lt. Gen. Arthur J. Gregg
- B. LTC Charity Adams
- C. Lt. Gen. Arthur J. Gregg and LTC Charity Adams
- D. General Omar Bradley

Fort Gregg-Adams honors two individuals: Lt. Gen. Arthur J. Gregg and LTC Charity Adams. The installation was renamed to recognize both leaders for their significant contributions to the Army. Arthur J. Gregg rose to lieutenant general and served in important senior leadership roles, illustrating the impact of strategic command. Charity Adams, as a lieutenant colonel, led the 6888th Central Postal Directory Battalion during World War II, exemplifying pioneering leadership by a Black woman in Army service. Naming the base for both reflects the Army's emphasis on recognizing diverse, impactful legacies across different eras and roles.

7. In a formal Army ceremony, what is the correct order of actions when entering a room with an officer?

- A. Halt, face the officer, stand at attention, and greet the officer with proper courtesy.
- B. Enter, stop, and softly greet the officer.**
- C. Walk in, stand at parade rest, and salute.
- D. Quietly pass by the officer without greeting.

When entering with an officer present in a formal Army ceremony, the priority is a brief, courteous acknowledgement that doesn't disrupt the flow of the event. The best sequence is to step inside, come to a stop, and deliver a soft, respectful greeting to the officer. This quick greeting shows recognition and respect without adding delays or overly formal movements unless the situation requires more. Why this works: the officer is acknowledged immediately as you enter, but you don't immediately adopt a rigid position or perform a salute unless the specific circumstance calls for it. A quiet verbal greeting keeps the ceremony moving smoothly while still reflecting courtesy and proper attention to rank. Why the other options don't fit as well: more elaborate actions like halting outside, turning to face, standing at attention, and greeting push the interaction into a heavier, more formal display than is needed for simply entering a room. Walking in and saluting indoors isn't typical unless you are specifically reporting to the officer or the protocol dictates a salute at that moment. Quietly passing by without greeting would be disrespectful and contrary to Army courtesy.

8. Who is widely recognized as the founder and early leader of the U.S. Army Ordnance in the Continental Army?

- A. Henry Knox**
- B. George Washington
- C. Samuel Adams
- D. Nathanael Greene

Henry Knox's leadership built the artillery arm of the Continental Army. As chief of artillery, he organized and trained artillerymen, secured and maintained cannons and ammunition, and created the unit cohesion and supply processes that turn scattered gun crews into a functioning ordnance service. His decisive actions in campaigns, including moving heavy siege guns to Boston to compel British evacuation, show how a focused ordnance organization can shape operations. That practical foundation is why he is widely recognized as the founder and early leader of the U.S. Army Ordnance in the Continental Army. The other figures played crucial roles in the war but did not establish the ordnance framework: Washington governed the whole army, Adams was a political leader, and Greene was a prominent general without creating the ordnance structure.

9. Which Army value emphasizes putting the welfare of the nation and subordinates above personal gain?

- A. Duty
- B. Selfless Service**
- C. Integrity
- D. Personal Courage

Selfless Service is the Army value that places the welfare of the nation and the soldiers under your command above personal gain. It means putting the mission and the people who depend on you first, even when it requires personal sacrifice or stepping back from what benefits you individually. In practice, this shows up as volunteering for tough assignments, looking out for your teammates, and making decisions that protect the unit and advance the greater good rather than chasing personal advantage. Duty is about fulfilling obligations and carrying out assigned tasks. Integrity centers on doing the right thing and being morally upright, even when no one is watching. Personal Courage involves facing fear, danger, or adversity for the sake of others and the mission. While these are all essential, Selfless Service uniquely emphasizes prioritizing the welfare of others and the nation over personal interests.

10. Which term is not one of the seven Army Values included in LDRSHIP?

- A. Courage
- B. Duty
- C. Respect
- D. Loyalty**

This question tests your recall of the Army Values as they appear in the acronym LDRSHIP. The seven values are Loyalty, Duty, Respect, Selfless Service, Honor, Integrity, and Personal Courage. The term Courage by itself isn't listed among the seven; the value is Personal Courage. So the term not included as a stand-alone value is Courage, since the others—Duty, Respect, and Loyalty—are clearly part of the list. The nuance is that Courage exists only as Personal Courage within the set.
